-Personal laptops with CD/DVD capabilities recommended! We have shifted from paper to electronic pubs. You will be able to follow along with the presentations and take notes in class with your laptop provided you have Adobe Reader. The schoolhouse will provide limited access to a workstation for you to develop your case study, but many prefer to work on the project after hours in the BOQ. The workstation will not be available during class. If you do not have a laptop or tablet we will have a limited number of paper pubs as a backup.

-Please read and be familiar with the attached copy of CNAFINST 1542.7.
